

Advances in Molecular and Clinical Diagnosis for Haematological Malignancies

Friday 25th April 2025, London

With Media Coverage by

www.londononeradio.com

Synopsis

This one-day hybrid event is dedicated to advancing the understanding of haematological malignancies.

The aim is to discuss blood cancer diagnostics, care and research by bringing together experts from the USA, Italy, France, Germany, Spain and the UK, who will provide updates on the classification of haematological malignancies, innovations in targeted therapeutics and cutting-edge insights into advanced diagnostics, including liquid biopsy and molecular pathology.

It will be a great opportunity for a diverse audience of haematopathologists, clinical haematologists, CNS nurses, researchers, and lay people, to network and develop interdisciplinary collaborations.

There will be a dedicated Poster Session that includes digital and up to 10 printed submissions. The topics of the posters should focus on how molecular techniques support refining routine diagnosis, challenging diagnostic cases, and research studies in clinical haematology and haematopathology from biology to the application of novel technologies.

Whether attending this event in person or virtually, this is a unique forum for learning about diagnostics, therapeutics, and innovations in haematological malignancies.

For registration and poster abstract submission, follow the link:

Advances in Molecular and Clinical Diagnosis for Haematological Malignancies

Friday 25th April 2025, London

The Royal Society of Medicine

1 Wimpole St, London W1G 0AE

08:15-08:35	Registration
08:40-09:10	The future Chairs: Prof Anthony Goldstone, London; Prof. Teresa Marafioti, London
08:40	Welcome
08:45-08:55 10 mins	Opening: From Peter Isaacson to Lymphoma 2025 Prof. Miguel Piris, Madrid, Spain
08:55-09:10 15 mins	The future ahead Prof. Tom Grogan – Tucson, USA
09:15-10:35	Genomic and Classification of Haematological Malignancies Chairs: Prof. Teresa Marafioti, London; Prof John Goodlad, Glasgow
09:15-09:45 30 mins	Keynote Lecture Historical evolution of the classification of lymphoma (Invited Speaker)
09:45-10:10 25 mins	Immunogenetics in small B cell lymphoma Prof. Elias Campo – Barcelona, Spain
10:10-10:35 25 mins	Follicular Lymphoma: from genetics to clinic Prof. Leticia Quintanilla-Fend – Tubingen, Germany
10:40 – 10:50 Coffee Break 10 mins	
10:55-12:10	Genomic and Classification of Haematological Malignancies Chairs: Prof Maria Calaminici and Dr Ayoma Attygalle; London
10:55-11:20 25 mins	The high-grade B-cell lymphomas and their borderlands Prof. German Ott – Stuttgart, Germany
11:20-11:45 25 mins	Molecular Biology of Burkitt Lymphoma Prof. Lorenzo Leoncini – Siena, Italy
11:45-12:10 25 mins	T cell lymphoma from biology to diagnosis Prof. Philippe Gaulard – Paris, France
12:10-12:45	Future of Lymphoma Classification and Q&A Session Chair: Dr Andrew Wotherspoon, London
12:15-12:35 20 mins	The Paradigm of Primary CNS Lymphoma Prof Maurilio Ponzoni - Milan, Italy
12:35-12:45 10 mins	Q&A Session
12:50-13:35 Lunch 45 mins	
13:40-15:00	B and T cell Lymphoma, Present and Future Therapies Chairs: Prof. David Linch and Dr. Kirit Ardeshta, London
13:40-14:00 20 mins	From lab discovery to clinical trial Prof. Reuben Tooze – Leeds, UK
14:00-14:20 20 mins	Bi- and Multi-specific Antibodies therapy Dr. William Townsend – London, UK
14:20-14:40 20 mins	Clinical Advances in T cell lymphoma Dr. Kate Cwynarski – London, UK
14:40-15:00 20 mins	Targeted therapy for Hairy Cell Leukaemia Prof. Brunangelo Falini – Perugia, Italy
15:05-15:15 Tea Break 10 min	

**Advances in Molecular and Clinical Diagnosis
for Haematological Malignancies**

Friday 25th April 2025, London

The Royal Society of Medicine

1 Wimpole St, London W1G 0AE

15:20-16:30	Advances in Haemato-Oncology and Q&A Session Chairs: Prof. Manuel Rodriguez-Justo, London; Prof. Andrea Marra, Rome
15:20-15:35 15 mins	K/L ish mRNA Dr. Marta Canamero – Penzberg, Germany
15:35-15:50 15 mins	Comprehensive testing by Euroclonality NGS DNA capture panel in routine diagnosis of lymphoma Prof. Stefan Dojcinov – Swansea, UK
15:50-16:05 15 mins	Tumour Infiltrating Clonal Haematopoiesis Dr Chris Bailey – London, UK
16:05-16:20 15 mins	Impact of Molecular Testing to Clinicopathological Diagnosis Dr. Rajeev Gupta – London, UK
16:20-16:30 10 mins	Q&A Session
	Poster Session
16:30-16:45 15 min	Dr Sabine Pomplun, London; Dr Heba Ali, Leeds and Dr Muntasser Al-Sharabati; London, UK
	Sum-up and Conclusion
16:45-17:05 20 min	Prof Falko Fend – Tübingen, Germany
